Outstanding build quality from Brevi – let us give you a 5 year warranty to prove it!

RECO are pleased to introduce Brevi - the new range of power harrows and cultivators which are now available. RECO will distribute the full range of Power Harrows, Rotary Cultivators and Inter-Row Cultivators which are the major products in Brevi's portfolio.

Brevi were founded in 1949 and today are recognised in the industry as one of the major cultivation machinery manufacturers in Europe. The Brevi range offers similar machine sizes and options that were previously available through RECO, with the benefit of a number of strategic additional sizes and increased warranty support.

RECO are so confident in the build quality of the Brevi range that they are offering a five year warranty on all power harrows. 'Warranty Xtra' provides the first three years fully inclusive of full parts and labour, with years four and five covering the drive line and gearbox only.

RECO Managing Director, John Walls, says "The Brevi range offers outstanding quality and value for money, and with the additional service support and fantastic warranty back up provided by RECO, we are confident that UK customers will be extremely pleased with our new range of cultivation machinery".

RECO ceased promoting Maschio machines on 31st October, but any machines sold will still be covered by the standard warranty and spare parts will continue to be available.

For more information about the Warranty Xtra please contact RECO on 01480 455151
