

'Pellicano' Sweeper Collector

The sweeper collector with a huge appetite!

Suitable for grassed areas or hard surfaces.

- Optimum 1.3m width – collects grass from a 1.8m rear discharge finishing mower but is small enough to manoeuvre in the tightest of spaces.

Hydraulic tip

- Four section, paddle type rotor sweeps cleanly, generating massive 'blow' to pack grass, leaves, aerator cores or litter into the collector.

- Optional hydraulic drive gully brush clears right up to the edges of car parks, etc.

- Cover protects operator from excessive dust.
- Height adjustment; front and rear.

Machine Specifications	BSW130
Working width (cm)	130
Overall width (cm)	166
Horsepower required	20 - 30 hp
Weight (kg)	188
Collector capacity (m ³)	0.73
